SUMMARY

Computer Science graduate with hands-on experience in Python, Django, SQL, JavaScript, and full-stack web development. Built scalable web applications with authentication systems, REST API integration, responsive UI design, and cloud deployment. Proficient in debugging, database design, software development lifecycle, and problem-solving.

EDUCATION

B.Tech – Computer Science & Engineering

Chebrolu Engineering College | 2021 – 2025 | 75.38%

TECHNICAL SKILLS

- **Programming:** Python, SQL
 - **Web Development:** HTML, CSS, Bootstrap 5, JavaScript
 - **Databases & Frameworks:** MySQL, Django
 - **Developer Tools:** Git, GitHub, VS Code, Render, Netlify
 - **Core Concepts:** OOP, SDLC, REST APIs, CRUD Operations, Authentication Systems, Debugging, Database Design, Responsive Web Design
-

PROJECTS

- **SmartTodo-AI (Django Task Management Application)**
 - Engineered and deployed an AI-powered task management platform using Django and Bootstrap.
 - Implemented secure authentication system with registration, login/logout and session handling.
 - Added voice-controlled task navigation using JavaScript speech recognition API.
 - Designed responsive dark/light mode UI across multiple application views.
 - Built priority-based task management and automated overdue task detection.

GitHub: <https://github.com/Anjali-36/SmartTodo-AI>
 - **Cyberbullying Detection on Social Media**
 - Developed an NLP-powered Django web application for real-time cyberbullying detection.
 - Applied tokenization, stopword removal, normalization, and TF-IDF vectorization.
 - Trained and compared SVM, Logistic Regression, and Naive Bayes models.
 - Achieved 85% prediction accuracy.
 - Integrated ML model predictions into a responsive web interface.

-

INTERNSHIPS

- **Web Development Intern | Prodigy InfoTech**
 - Built responsive web applications using HTML, CSS, and JavaScript
 - Optimized performance through debugging and code refinement.
 - Collaborated using structured software development practices.
